

# Maps

Author: Lucy

Sharratt<info@cban.ca><p><a href="http://www.seedmap.org/" target="\_self">TheSeedMap</a> is a teaching and advocacy tool designed to show the state of global agrobiodiversity today. Anyone can use it? teachers, gardeners, policymakers, and more! The map identifies key threats to the world's seed and biodiversity systems, and highlights regions where people's movements are fighting to protect biodiversity? and winning!</p>
